

## PONNY CHAIR

Design: Ole Petter Wullum

*PONNY is a easy-to-use and robust chair with character. Aesthetically, it ties together with the rest of the KLOSS collection, but with a seat height of 35 cm it is designed to accommodate somewhat older children. The chair is made of plywood covered with sturdy and colourful laminate.*

*PONNY is an unpretentious, simple and straight-forward geometrical shape which makes it stand out as a feature in any given space.*
